

New in Paperback! This book supplies a soprano with nearly everything she may need to perform the operatic arias discussed. The 28 arias included are chosen from among those that are more popular and most widely studied and performed. There are descriptions of stage settings, with costume sketches by famed theatrical designer Leo Van Witsen. The heart of each discussion is a detailed descriptions of the sections of the area. While the scenic design may change from one production to another, the suggestions given for dramatic motivations, character building, and stage movement can be readily adapted for use in any theatrical environment. Although it is not intended that these arias be acted out on the concert stage, much of the information\_ the dramatic analysis, discussions of vocal and musical aspects, matters of style and tradition, and translations of the texts\_ should be profitable for students of singing and stage direction, as well as professional opera singers, no matter how or where the arias are performed. Paperback edition available June 2001. Cloth edition previously published in 1990.

Featherweights: Light, Mobile, and Floating Architecture (Architecture in Focus), I Had a Little Cat: Collected Poems for Children, Eaten Alive (Star Wars: Galaxy of Fear, Book 1), Theory for Ethnomusicology, An Affair to Remember: My Life With Cary Grant, The Attributes of the Winning Organization: Intelligent Interactive, Innovative, The Octopus: A Story of California, Nutrition for Foodservice and Culinary Professionals, The Silent Stranger: A Kaya Mystery (American Girl Mysteries), Peoples of a Spacious Land: Families and Cultures in Colonial New England,

Editorial Reviews. Review. It's difficult to think what more the authors could do to make the singer's task easier. I was impressed by much of the vocal advice. New in Paperback! This book supplies a soprano with nearly everything she may need to perform the operatic arias discussed. The 28 arias included are. Bringing soprano arias to life. Front Cover.
