

Charlie The Tree's™ Clickable Word Search is a partially-interactive word search eBook with 8 word search puzzles and 8 answer keys. This eBook allows readers to find and highlight individual words as they discover them in each puzzle. It provides interactive hints that help readers find hidden words. On some devices the reader may be able to keep track of the words found. On other devices paper and pencil must be used to track the words found, providing an opportunity for children to practice their handwriting and spelling. *As an eBook, this word search has fewer features than a full blown Android application, but you won't find any embedded options to purchase more features like you might find in an application.
