

Are You Looking for a Safe, Natural, Highly Effective Alternative to Chemical and Sugar Laden Medication and Health Care Products to Treat Common Ailments? Then try these simple homemade essential oil recipes. Essential oils are 100% natural and do not contain any chemicals, added sugars or synthetic agents. They are safer because most over the counter and prescription drugs involve the use of synthetic (sometimes toxic) agents that are designed to alter the body's functions and mask symptoms rather than address the cause. They are cheaper because the cost of essential oils is only pennies per dose. And as they are administered at home, you also save a trip to the doctor where you are exposed to the illnesses of other patients. And they are more effective as they are 50 to 70 times stronger than herbs. Essential oils are the most therapeutic and potent components of a plant. This book provides you with 71 simple and easy to make recipes to cure common ailments with a 100% natural solution and tells you how to use essential oils safely. It also provides advice about buying essential oils and lists a number of resources.
