

Challenged by the recent economic crisis, the building and construction industry is currently seeking new orientation and strategies. Here mass customisation is uncovered as a key strategy in helping to meet this challenge. The term mass customisation denotes an offering that meets the demands of each individual customer, whilst still being produced with mass production efficiency. Today mass customisation is emerging from a pilot stage into a scalable and sustainable strategy... The first dedicated publication of its kind, this book provides a forum for the concept within an applied and highly innovative context. The book includes contributions from some of the most prominent thinkers and practitioners in the field from across the world, including Kasper S. Vibæk, Steve Kendall, Martin Bechthold, Mitchell M. Tseng, and Masa Noguchi. Bringing together this panel of experts who have carried out research both in academia and practice, this book provides an overview of state-of-the-art practice related to the concept of customisation and personalisation within the built environment.

Dios Rome: An Historical Narrative Originally Composed in Greek During the Reigns of Septimus (Classic Reprint), Semi-Classical Analysis for the Schrodinger Operator and Applications (Lecture Notes in Mathematics), This is Your Brain in Love: New Scientific Breakthroughs for a More Passionate and Emotionally Healthy Marriage, Optoelectronic Interconnects VI: Proceedings of Spie : 27-29 January 1999 San Jose, California (Spie Proceedings Series, Volume 3632), Die Rechtsnatur der Domain und des Domainregistrierungsvertrags: Eine Einschätzung aus deutscher und US-amerikanischer Sicht (Europäische ...
