

Dive into Earth's oceans and discover the world of the sperm whale! Stunning, full-color photos show these large-headed whales above water and below. A range map reveals where these special sea creatures can be found. A labeled diagram helps readers identify flukes, flippers, and more. The sperm whale's size, habitat, senses, threats, diet, reproduction, and unique behaviors are also introduced. Plus, find out about the spermaceti organ that gives these whales their name. Learn about the long, deep dives sperm whales are capable of, and discover how they communicate. A facts page, bolded glossary terms, and an index support the engaging, easy-to-read chapter text. Checkerboard Library is an imprint of ABDO Publishing Company.

Physeter macrocephalus species guide, facts and images. The largest toothed whale in the world, the sperm whale is one of the deepest diving whales. Whalers pursued sperm whales for the rich oil in their oversized heads. Now biologists are on the tail of these deep-diving, long-lived, sociable and mysterious.

Kaikoura is one of the few places in the world where whales can be seen year-round & close to shore, including Sperm Whales, Humpback Whales. The sperm whale received its name from an organ inside its head—the spermaceti organ—that old-time whalers used to believe produced sperm. Instead, the sperm whale is the world's largest toothed whale, and the only animals on Earth that are larger than adult male sperm whales (more than 50 feet long [more .

The sperm whale is the largest toothed whale. Males reach 60 feet (17 m) in length and the smaller females are 37 feet (12 m). They are dark gray in color, have.

Sperm Whale. The inspiration for the white whale of Moby Dick, sperm whales have the largest heads, biggest brains, and make the loudest sound of any animal. Sperm whales are the largest toothed whales on earth. Their head is tremendous, measuring one third of their body length. Sperm whales are the biggest living things with teeth, and they seem to talk to each other. To decipher their messages, scientists are. While observing sperm whales off the Sri

Lankan coast, Philip Hoare came face to face with eight hunting orcas who had no fear of the.
