

A gripping novel of human hardship during the First World War, which draws on original records for a wealth of domestic and military detail. It follows the real-life story of a County Durham coal miner from childhood to marriage, enlistment into the Durham Light Infantry and finally to the carnage that was the Second Battle for Ypres. This tale skillfully threads together what happens back home with what was happening on the Western Front. This book contains graphic descriptions of the horrors of the trenches as well as the harshness of life down the mines, but there are many entertaining episodes told with warmth and charm and the message is essentially one of hope.
