

PREFACE. - THE aim of the Handbook of The History of Modern Civilization -0. continuation and completion of The History of Ancient Civilization, published in the same form more than a year ago-is to give to young students and general readers a comprehensive view of the progress of the nations, as far as it is known, out of the decadence of ancient civilization, through medieval barbarism, until they emerge in modern and advance to contemporary civilization. It is hoped that it may stimulate younger readers to pursue historical studies further, and may occasionally be useful to older students as a grouping together of knowledge already acquired. Though based on M. Ducoudrays 1 Histoire Sommaire de la Civilisation, this handbook is rather an adaptation than a translation; for M. Ducoudrays standpoint is so exclusively French, that it has been necessary not only to omit much and to correct freely, but also to fill numerous and extensive gaps in his Table of Contents
